

## The Second Aorist Active and The Second Aorist Active Participle

**The Aorist implies a single or completed action.**

Greek is like English and German, in that verbs make their past tenses in different ways –

“**Irregular**” verbs use several stems, eg. I go, I went. NT Greek has about 6 such verbs.

“**Weak**” verbs have endings added to the stem, eg. I call, I called. Greek calls these “First Aorists”

“**Strong**” verbs alter the stem, eg. I bring, I brought. Greek calls these “Second Aorists”.

**Second Aorists usually have a Stem which is one or two letters shorter than the Present Stem, or they may have a completely different stem.**

**Second Aorists use the same endings as the Imperfect.**
